

Greetings,

I am writing to introduce my company, Spick and Span Garbage Cans. We specialize in the cleaning and sanitizing of residential trash and recycling bins as well as condominium trash containers. Our company provides curb-side service and we would love to be a part of your community. Please allow me a moment of your valuable time to explain why you should consider our curbside bin cleaning services.

While other services may get your bins clean, Spick and Span Garbage Cans not only cleans but sanitizes the inside *and* outside of each bin. Most importantly, we do this in a manner where we protect families and neighborhoods from the hazards of bacteria found in and around these bins.

Our system is 100% environmentally friendly. Our fully self-contained cleaning unit collects all the chemicals and wastewater to avoid urban run-off, causing no harm to the storm water system or environment the way manual cleaning does. Our wastewater is then disposed of safely at a locally approved water treatment facility. Additionally, our cleaning solutions are "Green Certified".

Spick and Span Garbage Cans service would enhance the aesthetic look and value of the neighborhood, as well as eliminate odors found in and around these bins. Routine bin maintenance also helps with the reduction of pests, rodents, maggots and mosquitos. Most importantly, our services can eliminate health risks involved in the handling of trash and recycling bins by your homeowners.

Spick and Span Garbage Cans offers an effective product and superior service. We pride ourselves for having a thoroughly professional staff and management team. We meet our deadlines and deliver quality service. For further information about Spick and Span Garbage Cans and our services, I invite you to visit our website at [www.spickandspangarbagecans.com](http://www.spickandspangarbagecans.com).

If you have any questions you can contact me at (904) 751-1628 or e-mail me at [john@spickandspangarbagecans.com](mailto:john@spickandspangarbagecans.com). I look forward to meeting with you to discuss how we can help maintain a healthier and cleaner community for your Homeowners.

Regards,

John Arwood
